Report on the Financial Statements

We have audited the accompanying consolidated financial statements of North Portage Development Corporation and its subsidiaries, which comprise the consolidated statement of financial position as at March 31, 2014 and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 2014 and the results of its operations and cash flows for the year then ended in accordance with International Financial Reporting Standards.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

1. Nature of operations

Mission

The mission of the organization is to act as a catalyst, encouraging activities for people in downtown through public and private partnerships and revitalization strategies, and to work to ensure financial self-sufficiency.

North Portage shall be a centre of commerce, culture and living, integrated to form a diverse downtown community through a mixture of public uses including: residential, educational and entertainment facilities.

The Forks shall be developed as a "Meeting Place", a special and distinct, all season gathering and recreational place at the junction of the Red and Assiniboine Rivers, through a mixed use approach including recreational, historical and cultural, residential and institutional and supportive commercial uses.

Corporation background

North Portage Development Corporation (the "Corporation" or "NPDC") was incorporated under the Corporations Act Manitoba on December 13, 1983 and owns land and parking facilities in the North Portage area of Winnipeg, Canada. NPDC is owned equally by the following shareholders: the Government of Canada, the Province of Manitoba and the City of Winnipeg.

The Forks Renewal Corporation ("FRC"), a subsidiary of NPDC, was incorporated under the Corporations Act of Manitoba on July 24, 1987 and owns land known as The Forks Winnipeg, Canada, and operates The Forks Market.

Manitou Theatre Management Ltd. ("MTML"), previously named North Portage Theatre Corporation, a subsidiary of NPDC, was incorporated under the Corporations Act of Manitoba on May 27, 1986 and owns The IMAX Theatre at Portage Place, Winnipeg, Canada.

3898211 Manitoba Ltd., a subsidiary of NPDC, was incorporated under the Corporations Act of Manitoba on September 16, 1998 and operated the IMAX Theatre at Portage Place, Winnipeg, Canada.

FNP Parking Inc. ("FNP"), a subsidiary of NPDC, was incorporated under the Corporations Act of Manitoba on November 6, 2006 and operates various parking locations in downtown Winnipeg, Canada including The Forks.

The Corporation is not subject to tax under provision 149(1)(d) of the Income Tax Act.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

2. Basis of presentation

These financial statements are prepared on a going concern basis, under the historical cost model except for certain financial instruments that are measured at revalued amounts or fair values.

Basis of consolidation

The financial statements of the Corporation include the financial statements of the Corporation and those of The Forks Renewal Corporation, FNP Parking Inc., 3898211 Manitoba Ltd. and Manitou Theatre Management Ltd., all of which are controlled by the Corporation.

Total comprehensive income of subsidiaries is attributed to the owners of the Corporation.

All intra-corporation transactions, balances, income and expenses are eliminated on consolidation.

Statement of compliance

The financial statements of the Corporation have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The accounting policies in Note 3 have been applied consistently in all material respects.

3. Summary of significant accounting policies

Cash

Cash includes cash on hand and balances with banks, net of any outstanding cheques.

Investment in subsidiaries

The Corporation determines whether it is a parent by assessing whether it controls an investee. The Corporation controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

3. Summary of significant accounting policies (continued)

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Rental and parking income

Rental income (including The Forks Market revenue) and monthly parking income is recognized in the period in which the rental agreement relates. Casual parking income is recognized at the time payment is received from the customer.

Theatre income

Revenue from the theatre is recognized when the service is provided.

Investment income

Investment income is recognized over the passage of time using the effective interest method.

Events, sponsorship, grants and recoveries

Events, sponsorship, government grants and recoveries are recognized in the period in which the related event occurs.

Deferred Revenue

Consists of advance payment received for sponsorship and is recognized as revenue in the period in which the related event occurs.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The corporation as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

3. Summary of significant accounting policies (continued)

Land rents

Land rents for land leases that are considered to be operating leases are recognized in income as earned. Land rents received in advance are recorded as prepaid land rents and are recognized in income over the passage of time for which the amount is received.

Deferred charges

Deferred charges consist of prepaid building rent. The amounts are being amortized over 10 years.

The corporation as lessee

Assets held under finance leases are initially recognized as assets of the Corporation at their fair value at the inception of the lease. The corresponding liability to the lessor is included in the consolidated statement of financial position as an obligation under finance lease. Lease payments are allocated between interest expense and the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Interest expenses are recognized immediately in comprehensive income.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term.

In the event that inducements to enter into operating leases are received, such inducements are recognized as a liability at the outset of the lease. The benefit is recognized as a reduction of rental expense on a straight-line basis over the life of the lease.

Foreign currencies

The consolidated financial statements are presented in Canadian dollars, which is the Corporation's presentation currency.

In preparing the consolidated financial statements, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognized in comprehensive income in the period in which they arise.

Borrowing costs

Borrowing costs directly attributable to the acquisition or construction of qualifying assets are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

3. Summary of significant accounting policies (continued)

All other borrowing costs are recognized in comprehensive income in the period in which they are incurred.

Government contributions

Government grants are recognized when there is reasonable assurance that the Corporation will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in comprehensive income on a systematic basis over the periods in which the Corporation recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Corporation should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue in the consolidated statement of financial position and transferred to comprehensive income over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Corporation with no future related costs are recognized in comprehensive income in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

Property, plant and equipment

Items of property and equipment are recorded at cost and amortized over their estimated useful lives.

The estimated useful lives, residual values and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Amortization is calculated at the following rates:

Buildings	20-40 years
Building improvements	10-20 years
Equipment and computers	3-10 years
Equipment under finance lease	5 years

Investment property

Investment properties are measured at cost, including transaction costs of acquisition, less accumulated amortization and accumulated impairment losses.

Amortization is calculated at the following rates:

Buildings	20-40 years
Infrastructure enhancements	40 years

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

3. Summary of significant accounting policies (continued)

Impairment of tangible assets

At the end of each reporting period, the Corporation reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and an impairment loss is recognized immediately in comprehensive income.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized immediately in comprehensive income.

Debt

All mortgage loans are initially recognized at fair value less directly attributable transaction costs. After initial recognition, interest bearing loans are subsequently measured at amortized cost using the effective interest method. Transaction fees, costs, discounts and premiums directly related to the loans and borrowings are recognized in the statement of income and comprehensive income over the expected life of the borrowings. Interest payable is recognized on an accrual basis. Principal payments on mortgage loans due more than twelve months from the date of the balance sheet are classified as non-current liabilities.

Provisions

The amount recognized as a provision (if any) is the present value of the best estimate of the consideration required to settle the present obligation, taking into account the risks and uncertainties surrounding the obligation. The increase in the provision due to passage of time is recognized as an interest expense.

Financial assets

Purchase and sales of financial assets are recognized on the settlement date, which is the date on which the asset is delivered to or by the Corporation. Financial assets are derecognized when the rights to receive cash flows from the investments have expired or were transferred and the Corporation has transferred substantially all the risks and rewards of ownership. Financial assets are classified in the following categories at the time of initial recognition based on the purpose for which the financial assets were acquired.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

3. Summary of significant accounting policies (continued)

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Assets in this category include "trade and other receivables" and "long term tenant receivables". They are included in current assets, except for those with maturities greater than 12 months after the end of the reporting period, which are classified as non-current assets.

Loans and receivables are initially recognized at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest method.

Short term investments

Short term investments consist of GICs, short term investments and active market equities. Investments are initially recognized at fair value plus transaction costs and are subsequently carried at fair value with changes recognized in comprehensive income. Upon sale or impairment, the accumulated fair value adjustments recognized are included in the statement of comprehensive income.

Impairment of financial assets

At the end of each reporting period, the Corporation assesses whether there is objective evidence that a financial asset is impaired. Impairments are measured as the excess of the carrying amount over the fair value and recognized in the statement of comprehensive income.

Financial liabilities

Financial liabilities (including borrowings) are measured at amortized cost using the effective interest method.

In these financial statements accounts payable and accrued liabilities and long term debt have been classified as other financial liabilities.

Derecognition of financial liabilities

The Corporation derecognizes financial liabilities when the Corporation's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in comprehensive income.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

3. Summary of significant accounting policies (continued)

Change in accounting policy

The following new standard is effective for annual periods beginning on or after January 1, 2013: IFRS 13 *Fair value measurement* (IFRS 13). IFRS 13 clarifies the definition of fair value and provides related guidance and enhanced disclosures about fair value measurements. It does not affect which items are required to be fair-valued. IFRS 13 has been applied prospectively and its disclosure requirements need not be applied to comparative information in the first year of application. The Corporation has applied IFRS 13 for the first time in the current year. The adoption of IFRS 13 did not require any changes to the valuation techniques used by the company to measure fair value and did not result in any changes in the carrying value as at April 1, 2013.

Future changes to significant accounting policies

The IASB is working towards continual improvement through the development of new accounting standards and the annual improvements process. The IASB will issue a number of exposure drafts of new or revised standards over the next several years. The Corporation monitors the IASB work plans and publications to address any developments that may impact the organization.

The IASB published IFRS 9 – replaces IAS 39 – Financial Instruments: Recognition and Measurement, retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value, effective for annual periods beginning on or after January 1, 2015 with earlier application permitted.

The Corporation is currently evaluating the impact of these standards on its financial statements.

4. Significant accounting judgments, estimates and assumptions

The preparation of the Corporation's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the report date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected.

Judgments other than estimates

In the process of applying the Corporation's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements.

Operating and finance leases

The Corporation has entered into various lease agreements. Judgment was exercised by management to distinguish each lease agreement as either an operating or finance lease by looking at the transfer and retention of significant risks and rewards of ownership of the properties covered by the agreements.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

4. Significant accounting judgments, estimates and assumptions (continued)

Estimates

Useful lives of property, plant and equipment and investment property

The Corporation estimates the useful lives of property, plant and equipment and investment property based on the period over which the assets are expected to be available for use. The estimate useful lives are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. The carrying amounts of property, plant and equipment and investment property are analyzed in Notes 8 and 9. Based on management's assessment as at March 31, 2014, there is no change in useful life during the year. Actual results, however, may vary due to changes in estimates brought about by changes in factors mentioned above.

Discontinued operations

The Corporation estimated the potential future costs associated with the closing of the Imax Theatre at Portage Place, Winnipeg, Canada.

Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date. This applies only to the measurement of the long term debt (see Note 5).

5. Financial instruments risk and fair value measurement

Risk management objectives and policies

The Corporation is exposed to various risks in relation to financial instruments. The main types of risks are credit risk and market risk.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

5. Financial instruments risk and fair value measurement (continued)

Credit risk

Credit risk is the potential that a counterparty to a financial instrument will fail to perform its obligations. Financial instruments which potentially subject the Corporation to credit risk consist principally of receivables and loans receivable.

The maximum exposure of the Corporation to credit risk as of March 31, 2014 is \$670,262 (2013 - \$682,713).

The Corporation is not exposed to significant credit risk since the receivables are with a significant number of customers. In order to reduce its credit risk, the Corporation reviews a new customer's credit history before extending credit and conducts regular reviews of its existing customers' credit performance. An allowance for doubtful accounts is established based upon factors surrounding the credit risk of specific accounts, historical trends and other information.

Market risk

Market risk is the risk that changes in market prices, interest rates and foreign exchange rates will affect the Corporation's earnings or the fair values of its financial instruments. The Corporation has market risk attributable to its investments held for trading. The investments held for trading are carried on the balance sheet at the fair market value of the investments, with the change in fair value being recognized as an adjustment on the statements of comprehensive income and net equity.

Currency risk

Currency risk is the risk to the Corporation's earnings that arise from fluctuations of foreign exchange rates and the degree of volatility of these rates. The Corporation does not use derivative instruments to reduce its exposure to foreign currency risk.

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in interest rates. In seeking to minimize the risk from interest rate fluctuations, the Corporation manages exposure through its normal operating and financing activities. The interest rate exposure relates to cash, investments and long term debt.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

5. Financial instruments risk and fair value measurement (continued)

Fair value measurement of financial instruments

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: unobservable inputs for the asset or liability.

The Corporation does not have any financial instruments in the Level 3 category and there were no transfers between Levels during the year.

The short term investments would be classified as Level 1. The carrying value of short term investments is valued based upon the market to market basis of accounting for investment values using quoted prices of the individual investments in an active market.

The Corporation's carrying value of cash, restricted cash, accounts receivable, accounts payable and accrued liabilities, funds held in trust, and obligation under finance lease approximates their fair value due to the immediate or short term nature maturity of these instruments.

Financial instruments measured at amortized cost for which the fair value is disclosed

The fair value of the long term debt is impacted by changes in market yields which can result in differences between the carrying value and the fair value of the instruments. The fair value of the long term debt has been estimated based on the current market rates for mortgages and loans of similar terms and conditions. The estimated fair value at March 31, 2014 of the mortgage loan is \$12,719,543. The estimated fair value at March 31, 2014 of the term loan is \$11,481.

The valuation of the long term debt using current interest rates would be classified as Level 2 of the fair value hierarchy.

6. Restricted cash

Restricted cash consists of cash held in trust by the Corporation for the Weather Protected Walkway System expansion in downtown Winnipeg. The Corporation is managing the accounting and cash disbursement aspect of this project. The liability, in the same amount as the asset, is included in accounts payable and accrued liabilities.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

7. Trade and other receivables	<u>2014</u>	<u>2013</u>
Trade receivables	\$ 551,891	\$ 546,353
Allowance for doubtful debts	<u>49,128</u>	<u>82,900</u>
Net trade receivables	502,763	463,453
Government remittances	(4,866)	2,413
Other receivables	<u>140,435</u>	<u>181,227</u>
	<u>\$ 638,332</u>	<u>\$ 647,093</u>

The credit period on sale of goods and services is 30 days. The Corporation has recognized an allowance for doubtful debts against all receivables over 120 days because experience has shown that those amounts are not recoverable. Allowances for doubtful debts are recognized against trade receivables between 60 days and 120 days based on estimated irrecoverable amounts determined by reference to past default experience.

Aging of receivables that are past due but not impaired

31-60 days	\$ 88,250	\$ 64,458
61-90 days	152,658	174,864
91+ days	<u>112,400</u>	<u>203,920</u>
Total	<u>\$ 353,308</u>	<u>\$ 443,242</u>

Changes in the allowance for doubtful debts

Balance at beginning of the year	\$ 82,900	\$ 76,065
Impairment losses recognized on receivables	21,515	63,192
Amounts written off during the year as uncollectible	(55,287)	(57,020)
Amounts recovered during the year	-	663
Impairment losses reversed	-	-
Balance at end of the year	<u>\$ 49,128</u>	<u>\$ 82,900</u>

In determining the recoverability of a trade receivable, the Corporation considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the fact that the customer base is large and unrelated.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

13. Government contributions (continued)

Manitou Theatre Management Ltd., formerly the North Portage Theatre Corporation (NPTC), received a repayable loan from Manitoba Development Corporation in the amount of \$1,800,000. The loan bears interest at 10% per annum after demand. The loan is secured by a fixed and specific mortgage and charge on the theatre air rights and the equipment as well as a floating charge over the assets of NPTC. NPTC is required to make principal payments annually equal to 33 1/3% of net income of the IMAX Theatre at Portage Place. Cumulative repayments to date have been \$88,363 (2012 - \$88,363). In 2013, Manitoba Development Corporation forgave the remaining balance of the loan.

Authorized		
Unlimited common shares		
Issued and fully paid		
3 common shares	\$ <u>3</u>	\$ <u>3</u>

15. Donated land

The Company acquired title and possession of 55.9 acres of land donated by the Government of Canada, the Province of Manitoba and the City of Winnipeg as follows:

	<u>Government of Canada</u>	<u>City of Winnipeg</u>	<u>From Core Area Initiative</u>	<u>Total</u>
Acres	49	3.9	3.0	55.9

These lands were acquired pursuant to the Land Exchange Agreement. Donated land was recorded at fair market value as approved by the FRC Board of Corporation on June 5, 1989. During the 1992/93 fiscal year, 3.8 acres of Pioneer Blvd. and The Forks Market Road were dedicated as public rights-of-way to the City of Winnipeg. During 2003, 0.5 acres of donated land were transferred to the City of Winnipeg. During 2007, 1.65 acres of donated land was sold to the City of Winnipeg. The remaining lands under the FRC's ownership are 49.95 acres.

16. Finance costs	<u>2014</u>	<u>2013</u>
Continuing operations		
Interest on mortgage payable	\$ 652,938	\$ 671,680

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

17. Operating lease arrangements

The corporation as lessee

Leasing arrangements

Operating leases relate to leases of land with lease terms of between 5 and 10 years. All operating lease contracts over 5 years contain clauses for 5-yearly market rental reviews. The Corporation does not have an option to purchase the leased land at the expiry of the lease periods.

	<u>2014</u>	<u>2013</u>
Minimum lease payments	\$ 267,724	\$ 319,225

The corporation as lessor

Leasing arrangements

Operating leases relate to the investment property owned by the Corporation with lease terms of between 5 to 10 years, with an option to extend for a further 10 years. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

18. Commitments

The corporation has an obligation to operate the Imax Theatre at Portage Place for a 50 year period, ending in 2035.

FRC has leased parking, storage and an office site at The Forks to December 2016. FNP Parking Ltd. is administering the obligation. The lease, containing renewal options, calls for base monthly payments of \$1,667 and provides for payment of utilities and property taxes.

19. Related party transactions

Balances and transactions between the Corporation and its subsidiaries, which are related parties of the Corporation, have been eliminated on consolidation and are not disclosed in this note. Details of transactions between the Corporation and other related parties are disclosed below.

North Portage Development Corporation

Notes to the Consolidated Financial Statements

March 31, 2014

19. Related party transactions (continued)

Compensation of key management personnel

The remuneration of key management personnel during the year was as follows:

	<u>2014</u>	<u>2013</u>
Wages and other short-term benefits	\$ <u>744,536</u>	\$ <u>743,467</u>

Government related entity

NPDC has elected to apply the exemption regarding the disclosure of transactions and outstanding balances with government related entities.

20. Management of capital

The Corporation's capital consists of contributed surplus and donated land equity. Donated land was recorded at fair value, as approved by the Board of Corporation in FRC, in 1989.

The capital structure of the Corporation is comprised of the following:

	<u>2014</u>	<u>2013</u>
Total debt and deferred shareholder contributions	\$ <u>26,157,512</u>	\$ 27,884,833
Capital stock	<u>3</u>	<u>3</u>
Net equity	<u>57,106,879</u>	<u>56,542,058</u>
	<u>\$ 83,264,394</u>	<u>\$ 84,426,894</u>

The Corporation's objective in managing capital is to safeguard its ability to continue as a going concern, in order to carry out its mission as described in Note 1.

The Corporation prepares a budget each year, allocating expenses to revenue they expect to earn and funding it expects to receive.

The Corporation monitors capital from time-to-time using a variety of measures which are applicable to its industry. Monitoring procedures are typically performed as a part of the overall management of operations and are performed with the goal of enhancing the ability of the Corporation to reduce the cost of capital. An investment policy is in place to guide the Corporation in the management of surplus funds. These guidelines ensure that capital is preserved, rates of return are maximized and funds are available as needed.

North Portage Development Corporation
Notes to the Consolidated Financial Statements

March 31, 2014

21. Comparative figures

Certain of the prior year comparative figures have been reclassified to conform to the financial statement presentation adopted for the current year.

22. Approval of the financial statements

The financial statements were approved by the Board of the Corporation and authorized for issue on June 19, 2014.
